Brisingr is the third novel in the
Inheritance Cycle by Christopher

Paolini. It was released on

September 20, 2008. Originally,

Paolini intended to conclude the

then Inheritance Trilogy in three

books, but during writing the

third book he decided that the

series was too complex to

conclude in one book, because

the single book would be close to

1,500 pages long. Mon, 12 Oct
