Brief Edition of Reading ... -
Reading is one strand of literacy.
The reading process is complex
and multi-dimensional. Effective
teachers have an understanding of
this complexity and are able to
use a range of teaching
approaches that produce
confident and independent
readers. Recent work completed

Process - PDST - The Reading
Process Reading is a process that
includes three phases: before
reading, during reading and after
reading. In the before-reading
phase, the reader establishes in
his or her mind a purpose and a
plan for reading. Then, the reader
begins to read the written
textâ€”the during-reading phase.

effectively teach guided reading,
it helps to understand the reading
process as it represents the ways a
reader accesses and integrates
information from multiple cues
for the purpose of gaining
understanding. This tenet is the
most important idea in this book!

Process. There are many reading
skills that must develop for
students to learn to read. More
directly, reading skills make the
reading process possible. They
are taught through modeling,
explicitly explaining, guiding
during reading, and independent
