It is ten years and over, now, since that line divided New York's population evenly. To-day three-fourths of its people live in the tenements, and the nineteenth century drift of the population to the cities is sending ever-increasing multitudes to crowd them. Wed, 18 Nov 2020

of macroeconomics, which is not based on those two assumptions. This book started life as Part II of a joint book project with my brother John Koo, a well-known dermatologist, who came up with some fascinat-ing insights on where civilization might be headed by applying scientific methods to analyze the evolution of religion and morality.
