- The Overworked American is a well-researched, but dense economic history of the our struggle with the tradeoff between time and money. What really makes this book shine is the data in the latter chapters of the book that discuss the implications of the recent research that shows the broad preference for Americans to receive more free time ...

Fri, 04 Sep 2020 12:36:00 GMT The Overworked American: The Unexpected Decline Of Leisure ...

- Juliet Schor's The Overworked American, documents how contemporary Americans are working longer hours than ever and, in the process, supports Melville's contention that too much work results in a loss of independence. Schor offers three broad explanations for the rise of overwork: the "incentive structures" within capitalism
