Online Quilting Videos, How to Quilt, Quilting  
Tutorials - As the circles became  
larger, it was easy to align the  
guide bar on my walking foot  
with the last circle and quilt  
around the shape just using the  
guide. The bigger the circle, the  
easier it will be to quilt because  
the curve will be shallower which  
means less need to stop and lift  
the foot to shift the quilt. Tue, 10

wanted my circle to go right over

both threads up. I started in the
